1st finished game: Tower Defense meets Trading Card Game

INTRODUCTION

Minionverse, is a Free-to-Play, **tower defense and trading card game** powered by NFT Gaming. Minionverse introduces an entirely new genre to the Web 3 space: **free-to-mint gaming**.

Operating with the **\$MIVRS** token, HaM is the only blockchain game supporting Facebook Gameroom, Steam, desktop, and iOS & Android devices!

Fully developed gameplay

100% playable (without NFT/Blockchain)

- Developed for Android / iOS / PC / Web
- Made by experienced team at Fuero Games

GET IT ON
Google Play

Download on the
App Store

Game is ready to launch

To Do:
blockchain implementation

NFT's / P2E implementation needed

- Integration with Blockchain
- Cards and Heroes as NFT's
- \$MIVRS Token as utility in-game
- Improvement of gameplay for higher player retention
- Adding more game content
- Battle mechanics revision

Thousands of arts and development hours already spent

The team at Furo Games spent over 2 years to develop the game. It is well tested and 100% developed. This minimizes the risk of launching the \$MIVRS token and using it as in-game utility.

Cards and items will be tradable NFT's.

Blockchain / NFT implementation awaiting

The goal of the game is simple enough to understand:

- ◆ Assault enemy bases with unstoppable waves of sneaky summoned minions
(minions can be rewards or bought as NFT's)
- ◆ Command mighty heroes that can be earned with **\$MIVRS Tokens and then traded as NFT's**
- ◆ Protect your base with tactical defenses and towers, which are acquired with \$MIVRS Tokens. **Towers will be NFT's that can be traded.**
- ◆ Raise your **guardian dragon and sell / trade as NFT's**
- ◆ **Clans** will have the possibility to redistribute NFT's in their banks
- ◆ **Play2Earn:** players will have number of ways to earn \$HEAM tokens - but in a limited manner

Utilities of \$MIVRS Token.

- **Used in all 3 games of MinionVerse**
- Purchase NFT's **heroes and minions**
- Stake **to get free NFT's**
- Buy gold / gems **to upgrade heroes and minions capabilities**
- Spend **on Tower Upgrades**
- Get tickets **to Tournaments, Seasons, Rankings**

• MarketCap benchmarks from other games.

Splinterlands: \$2.7 BLN
at ATH

Axie Infinity: \$15 BLN

Gods Unchained: \$5
BLN at ATH

Mobox: \$3 BLN

Competitive comparison

Features

All 3 games in 1 universe

Fully 3D Gameplay

PVP + PVE Modes

Tradable NFT's

Experienced Game Studio

iOS + Android + PC

The roadmap to full growth.
