

HEROES AND MINIONS

Start

Tower Defense meets Trading Card Game

INTRODUCTION

- Heroes and Minions, or HaM, is a **Free-to-Play, Play-to-Earn NFT game developed by Fuero Games**. It is a mashup of **tower defense and trading card games**, with PvE and PvP (asynchronous) modes. It is the first and only blockchain game supporting Facebook Gameroom, Steam, desktop, and iOS & Android devices! Its in-game currency is called **\$HEAM**.

Fully developed gameplay

100% playable (without NFT/Blockchain)

- Developed for Android / iOS / PC / Web
- Made by experienced team at Fuero Games
- Soft launched on Steam

Game is ready to launch

To Do:
blockchain implementation

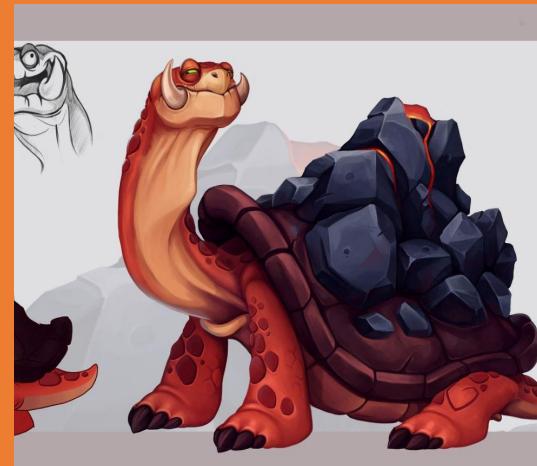

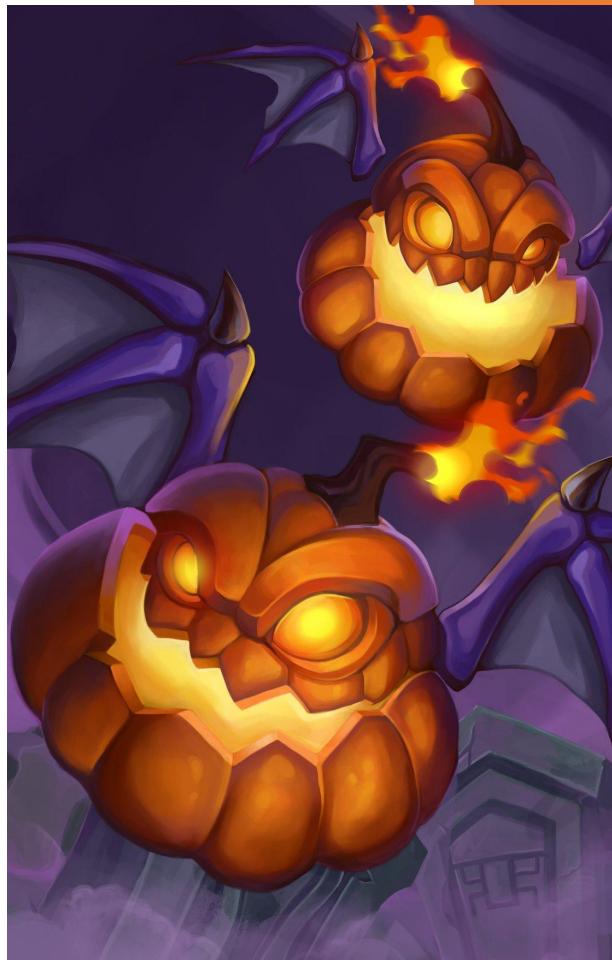

NFT's / P2E implementation needed

- Integration with Blockchain
- Cards and Heroes as NFT's
- \$HEAM Token as utility in-game
- Improvement of gameplay for higher player retention
- Arts revision
- Battle mechanics revision

Thousands of arts and development hours already spent

The team at Fuero Games spent over 2 years to develop the game. It is well tested and even soft launched on Steam. This minimizes the risk of launching the \$HEAM token and using it as in-game utility.

Cards and items will be tradable NFT's.

Blockchain / NFT implementation awaiting

The goal of the game is simple enough to understand:

- ◆ Assault enemy bases with unstoppable waves of sneaky summoned minions
(minions can be rewards or bought as NFT's)
- ◆ Command mighty heroes that can be earned with **\$HEAM Tokens and then traded as NFT's**
- ◆ Protect your base with tactical defenses and towers, which are acquired with \$HEAM Tokens. **Towers will be NFT's that can be traded.**
- ◆ Raise your **guardian dragon and sell / trade as NFT's**
- ◆ **Clans** will have the possibility to redistribute NFT's in their banks

Utilities of \$HEAM Token.

- Purchase NFT's: heroes and minions
- Stake to get free NFT's
- Buy gold / gems to upgrade heroes and minions capabilities
- Spend on Tower Upgrades
- Get tickets to Tournaments, Seasons, Rankings

MarketCap benchmarks from other games.

**Splinterlands: \$2.7 BLN
at ATH**

Axie Infinity: \$15 BLN

**Gods
Unchained: \$5
BLN at ATH**

Mobox: \$3 BLN

At vero eos et accusamus et
iusto odi dignissimos ducimus.

Competitive comparison

The roadmap to full growth.

2022 Q1

- Team assemble
- Fundraising start
- Website, Pitchdeck and more

2022 Q2

- Close funding (Private Rounds)
- IDO with platforms
- TGE of \$HEAM Token
- Alpha launch of the game with Blockchain integration

2022 Q3

- Launch on T-1 exchanges
- Beta public launch of the game
- Marketing Campaigns among famous KOL's / Influencers
- Grow the community

2022 Q4

- Full release of the Game
- Player growth campaigns and analytics
- NFT Marketplace integration
- Multichain integration

Superstar management team.
